

## The Neighbourhood Plan needs your local knowledge!

Dear resident,

We're currently starting to draw up detailed policies for the Bovey Tracey Parish Neighbourhood Plan and we are looking for any suggestions you might have for:

**1. Views/vistas across the Parish:** are there any vistas across the parish that you would like to see protected? If so, we need to know the following:

- where we should stand to view them;
- in what direction we should look; and
- what it is about the vista that makes it special and unique to us.

You could even send us a photo of the vista if that's easier. This will help us to map these out for the plan. Note that the views must be from public space viewpoints (i.e. not from your gardens or homes).

**2. Green spaces (areas of grass, trees or other vegetation for recreational or aesthetic purposes) that you think are important to the Parish** and why they are important. Please provide the name of the space where known or a description to help us to locate it.

**3. Any locations/spaces you know of that are home to nature** which you think makes that location important to protect – this could be particular plant species, insects, and larger animals too. Please provide as much detail as possible as to the particular species/animals and why they are important.

Please email Mark Wells (town clerk) at [neighbourhoodplanning@boveytracey.gov.uk](mailto:neighbourhoodplanning@boveytracey.gov.uk). If possible, please also include your contact details just in case we need to clarify exact locations with you.

Thank you and kindest regards from the Neighbourhood Plan team.

Please provide your suggestions here:
